Short Methodology Statement Research company YouGov Galaxy Pty Ltd Client commissioning the research The Australian, News Corp Australia End client The Australian, News Corp Australia **Fieldwork dates** 13-16 May 2021 Mode of data collection Online recruited from research panel (100%) **Target population** Australians who are eligible to vote 1506 Sample size Australian Polling Council compliant Yes **URL of Long Methodology statement** https://au.yougov.com/results/apc Is voting intention published? Yes

Long Methodology Statement	
Effective sample size after weighting applied	1163
Margin of error associated with effective sample size	±2.9
Variables used in weighting	Age x gender x location, Age x education, AEC region x household income
Weighting method used	Rim weighting
Full question text, responses categories and randomisation	See below
Proportion of landline/mobile completed interviews	N/A
Source of online sample	Selected from previously recruited online panels of research participants to fill quotas loosely based on weighting frame
Positioning of voting intention questions in questionnaire?	Immediately after demographics
How were undecided voter handled?	Undecided respondents who answered "don't know" were asked a leaner question which also included a "don't know" option. Those who answered don't know were excluded from published voting intention figures but not from the survey. 6% were thus excluded from published voting intention figures.
2PP calculation method	Calculated according to preference flows at previous federal and state elections
