Some countries are considering making Internet Service Providers offer a service that filters internet sites and automatically block pornographic sites from people's home internet service.

Some people think that customers should have to choose to have their internet service filtered (an opt-in service), other people think that internet services should all be filtered unless customers ask for their service to be unfiltered (an opt-out service).

Do you think an internet filter should be opt-in or opt-out?

Opt-in (someones internet service should only be filtered if they ask for it)	<b>54</b>	53	59	55	51	55	55	70	40	68	63	54	41	59	49	59	54	55	51	58
Opt-out (people's internet service should be filtered unless they ask for it not to be)	<b>38</b>	43	34	36	43	38	39	24	52	22	27	41	51	36	41	30	39	40	40	37

Do you think governments introducing opt-out filters on the internet would or would be an infringement of peoples' civil liberties?

Would be infringing peoples' civil liberties - people should be free to view what they want on the internet without the government interfering	<b>46</b>	42	52	48	40	47	48	62	31	59	53	48	32	49	41	47	46	45	45	50
Would NOT be infringing peoples' civil liberties - it would help stop children seeing pornography online and people could always opt-out if they wanted to	<b>45</b>	51	39	44	52	47	44	30	60	31	36	45	59	44	47	41	45	48	45	45
