**\*Previously asked with this question until January 2012:** The SNP wishes to hold a referendum on Scottish independence in due course. Voters would be asked whether they agree or disagree 'that the Scottish government should negotiate a settlement with the Government of the United Kingdom so that Scotland becomes an independent state'. How would you vote if such a referendum were held tomorrow?

**Do you think Scotland would be economically better or worse off if it became an independent country, or would it make no difference?**
