Parliament is due to debate a measure that would make it explicitly illegal to conduct an abortion on the basis of the sex of the foetus. Some of those who support the change argue that the law is currently unclear on this issue whilst some of those who oppose the change argue that the current law is sufficient and the change would push the practice underground.

How strongly would you support or oppose a change in the law to make it explicitly illegal to perform an abortion on the basis of the sex of the foetus?
