Sponsorship The Economist

Fieldwork YouGov

Interviewing Dates August 31-September 2, 2013

**Target population** U.S. citizens, aged 18 and over.

Sampling method Respondents were selected from YouGov's panel using sample

matching. A random sample (stratified by age, gender, race, education, and region) was selected from the 2005–2007 American Community Study. Voter registration, turnout, religion, news interest, minor party identification, and non-placement on an ideology scale, were imputed from the 2008 Current Population Survey Registration and Voting Supplement and the Pew Religion in American Life Survey. Matching respondents were selected from the YouGov panel, an opt-

in Internet panel.

Weighting The sample was weighted using propensity scores based on age,

gender, race, education, news interest, voter registration, and non-placement on an ideology scale. The weights range from 0.08 to 7.09,

with a mean of one and a standard deviation of 1.

Number of respondents 1,000

**Margin of error**  $\pm$  4.4% (adjusted for weighting)

**Margin of error (Registered Voters)**  $\pm$  4.7% (adjusted for weighting)
