A financial transactions tax (FTT) is designed to tax the transactions of shares, bonds and derivatives mainly within the financial sector.																										
It has been suggested that there should be a tax rate of 0.5% or less.  Do you think the financial sector can or cannot																										
afford to pay this?  Can afford to pay this	59	45	43	54	56	62	31	43	50	51	41 <b>I</b>	55	42	52	30	36	40	56	48	49	41	47	47	30	46	51

In the last 10 years, do you think the financial sector has or has not contributed sufficiently to the wider economy? [In June, this question was worded slightly differently: In the last few years, do you think the financial sector has or has not contributed sufficiently to the wider economy?]
