

YouGov / ARX Inc. Survey Paper Survey

Sample Size: 576 senior managers in small, medium and large sized businesses

Fieldwork: 20th - 25th September

Total	Gender		Age					Region Work In							
Base	Male	Female	18-24	25-34	35-44	45-54	55+	North	Midlands	East	London	South	Wales	Scotland	Elsewhere (i.e. outside of Great Britain)

Thinking about internal (such as HR and legal) and external (such as procurement orders) documents which are required to be signed off by at least one employee in your organisation (i.e. NOT something that only customers/vendors sign)...

Within your department, on average how many people need to sign off each document, form or agreement by hand signature (i.e. pen & paper signatures)?

(Please give your BEST estimate. If your company isn't split into departments, please think about how many people need to sign off generic documents by hand in the organisation)

The following question asks about how many additional copies are printed for each transaction made in your department. When answering this, please think about instances where, for example, documents are scanned and attached to emails and that several signatories may end up printing, signing and scanning their own copies to provide their sign off on a document, form or agreement. Thinking about your department, approximately how many, if any, additional copies of documents for each transaction are printed just in order to collect physical signatures (i.e. pen & paper signatures)? (Please give your BEST estimate. If your company isn't split into departments, please think about how many people need to sign generic documents in the organisation)
