Annual spending on welfare – benefits, pensions and tax credits – is about £200 billion a year. What percentage of the total amount do you think is spent on each of the main categories listed below? Please enter the percentage in numbers (without a percentage sign); remember, the total must add to 100. We are interested in your best guess.

Here are some specific proposals that have been made to reform the welfare system. To what extent would you support or oppose each proposal? (Please tick one option per row)

Put a limit on the amount of time someone can be unemployed, by providing work of social value, paid at the minimum wage, for anyone out of a job for more than 12 months; and require them to take it or lose access to benefits.
