The government appointed an independent commission, the Davies Commission, to look at how to increase airport capacity in the South-East. This has now reported and has recommended an extra runway at Heathrow

Which of the following best reflects your view?

Putting off the decision to 2015 was just dithering, a decision on what to do about airport capacity should have been taken much sooner

There was no immediate hurry and it is right that an independent body had chance to take a considered view on what to do about airport capacity
