Britain's current system of submarine launched nuclear weapons, known as Trident, is coming to the end of its useful life and will soon have to be scrapped or replaced. What do you think Britain should do when Trident reaches the end of its useful life?

- Britain should replace Trident with an equally powerful nuclear missile system
- Britain should retain a nuclear missile system, but it should be less powerful and cost less than replacing Trident
- Britain should give up nuclear weapons completely
- Don't know
