

Frontend Developer

Department: YouGov Digital
Location: London or Warsaw
Hours: Full Time (37.5hrs)

YouGov is a global opinion research company that is innovating rapidly in survey systems technology and visual analytics. Our products deliver insight to our clients in ways that are compelling and groundbreaking. The value of the rich, accurate, YouGov data delivered via user experiences that shine is a market winning combination.

Key responsibilities

The Frontend Developer will join the team to innovate and build our online Profiles application. They will work primarily on the web front-end, but also with the rest of the team in the creation of the entire stack.

Skills and experience

- 2-5 years strong JavaScript experience
- AngularJS competence
- Familiarity with JS graphing/charting framework (d3.js, FusionCharts, etc.)
- Demonstrated cross-browser experience
- Ability to test, profile, and optimize web applications (Selenium or similar)
- Competence in a backend language, Python preferred
- Experience with S3 and CloudFront
- Git, Jenkins, PostgreSQL desirable
- Data analysis or statistics training valuable
- Mobile platforms a plus
- Commitment to best practices including TDD

Person specifications

- Excellent interpersonal skills
- Problem solving, analytical and numerical skills
- Ability to self-organise and self-manage to achieve targets
- Excellent written, oral and electronic communication skills

If you are a developer who is talented at using HTML, CSS and JavaScript to build interfaces, loves coding and is constantly trying to improve your craft, please send your CV and cover letter to chris.jones@yougov.com.

This is not an exhaustive list, and you will be expected to be flexible in your approach to carrying out your duties, that may change from time to time to reflect changes in the Company's circumstances. This will include providing cover for colleagues as required. The Company therefore reserves the right to vary the job description in consultation with you.

All YouGov plc employees are expected to comply with the Company's policies, rules and procedures as outlined in the handbook, health and safety manual and all other publications.
