The Economist/YouGov Poll

October 8 - 12, 2015

89. Assault Weapons Ban

In 1994, the federal government enacted the Federal Assault Weapons Ban. The ban defined an assault weapon as a semi-automatic rifle or shotgun with features common in military firearms (e.g. collapsible stock, flash suppressor, pistol grip, large capacity magazines). In 2004, Congress did not renew the legislation and the ban is no longer law. Some members of Congress have recently begun an effort to renew the federal assault weapons ban. Do you support or oppose legislation that would ban "assault weapons"?

The Economist/YouGov Poll

October 8 - 12, 2015

117. Make it Easier for CIA and FBI

These days, people's phone and e-mail communication is often encrypted to protect privacy and confidentiality. Would you favor or oppose reducing encryption of communications to make it easier for the FBI (Federal Bureau of Investigation) and CIA (Central Intelligence Agency) to monitor the activities of suspected terrorists—even if it might infringe on people's privacy and affect business practices?

118. Support for Back Door Encryption Key Legislation

Hi-tech companies have started selling laptops, smartphones, tablets and other personal devices that encrypt data in a way that only the owner has access to the data, not even the product manufacturers are able to gain access. Some people say this is necessary to prevent cyber thieves from gaining access to private information. Other people say that this new encryption will allow terrorists and criminals to avoid detection. Do you support or oppose legislation that would require companies to develop back door keys to encrypted data on these devices in order to provide the government access if it had a search warrant?

The Economist/YouGov Poll

October 8 - 12, 2015

Sponsorship	<i>The Economist</i>
Fieldwork	YouGov
Interviewing Dates	October 8 - 12, 2015
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by age, gender, race, education, and region) was selected from the 2010 American Community Study. Voter registration was imputed from the November 2010 Current Population Survey Registration and Voting Supplement. Religion, political interest, minor party identification, and non-placement on an ideology scale, were imputed from the 2008 Pew Religion in American Life Survey.
Weighting	The sample was weighted using propensity scores based on age, gender, race, education, news interest, voter registration, and non-placement on an ideology scale. The weights range from 0.2 to 4.1, with a mean of one and a standard deviation of 0.81.
Number of respondents	2000
Margin of error	± 2.8% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	39 questions not reported.
