As you may have seen, a probe from a European spacecraft has landed on a comet. One of its aims is to test whether comets might have played a part in creating life on Earth by bringing organic compounds here many millions of years ago.

How do you personally think life on Earth began originally?

It was created by God	15	14	20	10	15	16	18	13	14	16	12	17	13	17	15	15	23	15	14	12	16

None of these things: it happened because conditions here on Earth happened to be suitable.	40	46	39	41	42	42	37	40	43	37	38	41	38	42	42	37	33	42	37	46	34
