7. Approve Overtime Proposal

Currently, businesses are exempt from paying salaried employees who earn more than \$23,660 overtime pay. The federal government has proposed a new rule to raise the threshold to \$50,440. Some people argue this will help workers because it will increase the number of people eligible to receive overtime pay. Other people argue that this will hurt workers because the new rule will force employers to reduce employee hours or cut the number of employees. Do you approve or disapprove of the new overtime proposal?
