Some MPs propose that Brexit goes ahead, with the UK leaving the EU's political arrangements, but continues to have a Customs Union and Single Market relationship. In return for British businesses being able to trade freely with the EU, the UK would continue to make annual payments to the EU. This is sometimes known as the "Norway" option.

Which of these views comes closer to your view?

YouGov Weighting Data

YouGov weights GB political surveys by (1) age interlocked with gender and education, (2) political attention (3) social grade (4) 2017 recalled vote interlocked with region and (5) EU referendum recalled vote. Weighting targets are YouGov estimates, data sources used in the calculation of targets are cited below. General election voting intention figures are additionally weighted by likelihood to vote. The poll was carried out online.

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that they lie within 2 points.
