Your brand's perception changes every day

YouGovBrandIndex

What is BrandIndex?

BrandIndex is the first and only service that measures the fundamentals of brand health every day. We continually track the impact of your marketing and advertising campaigns on key business drivers. Every day, we interview thousands of consumers, yielding over 20 million interviews each year. Respondents are drawn from our online panels of over 6 million consumers across 38 markets. With over ten years' historical data about your brand and your competitors, we'll get you up to speed the moment you subscribe. If you don't subscribe to BrandIndex your competitors could be more informed about your brand's health and potential future performance than you are.

How do YouGov's clients use BrandIndex?

Measure

BrandIndex is the authoritative measure of brand perception among the general public.

Time-rich

Unlike other brand intelligence services, BrandIndex continuously measures public perception of thousands of brands across 50 sectors.

Savvy

Not only will you get a real time picture of your brand's health, but also that of your competitors and entire sectors.

BrandIndex uses YouGov's proven methodology to gather the most accurate measure of public opinion, delivering results through our unique reporting tool. This makes it easy for you to keep a constant eye on the performance of your brand. As the data is updated nightly, you can immediately spot and take

action on any changes in perception. BrandIndex operates at national and international levels, allowing you to track brand perception in just one country, compare across multiple countries or monitor the global picture.

Ikea case study

➡ Ikea releases a "Life at Home" report that sparks conversation about what everyday living across the world is like.

➡ Due to numerous accidents, Ikea issues a recall on drawers resulting in negative buzz but only slightly decreased consideration.

➡ Ikea launches "Let's relax" campaign that humorously satirizes the always-on social media culture. The ad increases Ad Awareness and "hits home" with viewers.

Brand health breakdown

BrandIndex tracks perception of the following metrics:

 **Aided Brand Awareness**
Which brands are you familiar with?

 **Advertising Awareness and Word of Mouth Exposure**
How many and which consumers are noticing advertising and participating in conversations about your brand.

 **Buzz**
The percentage of our respondents who report hearing something positive about your brand less the percentage who report hearing something negative

 **Attention**
The total number of consumers who have heard anything positive or negative about your brand.

 **Purchase Consideration**
A strong indicator of future sales, the metric asks which brands consumers are considering purchasing when next in market.

 **Purchase Intent**
Which brands are consumers most likely to purchase?

 **Value**
Do brands represent poor or good value for money?

 **Customer Satisfaction**
Are consumers satisfied or dissatisfied customers?

 **Corporate Reputation**
Would consumers be proud or embarrassed to work for a particular brand?

 **General Impression**
Asks consumers about their overall impression of the brand.

 **Recommendation**
Which brands do consumers tell their friends and colleagues to avoid and which do they recommend?

 **Customer Status**
Identifies consumers' status as a current or lapsed customer.

 **Index**
An overall measure of brand health, the Index is an average of Impression, Quality, Value, Satisfaction, Recommend and Reputation.

 **Quality**
Do brands represent poor or good quality?
