Below are a list of major charity appeals organised by the Disasters Emergency Committee over the last few years. You may have contributed to some of these, or you may have given to other appeals or to charities that help in other areas or other issues. Please look at this list, and tick any that you personally gave money to. Please only include any donations you made directly to the appeals for the disasters, and not any donations you may have made directly to other charities.

Shortly before the recent floods in Pakistan David Cameron accused the country of "looking both ways" on terrorism, and allowing the export of terrorism from within Pakistan. Some people have blamed Pakistan's association with terror for low donations to the charity appeal, while others have said it should have no impact on aid to a purely humanitarian disaster. Thinking about Pakistan, terrorism and whether you gave a donation to the recent appeal, which of the following best represents your view?

Pakistan does have an association with terrorism, but it made no difference to whether I gave money to the appeal	<b>51</b>	53	51	64	59	52	50	47	57	51	50	56	44	56	48	57	44	59
